1. Awards Advisory Committee Meeting Minutes – April 25, 2017
2. Finance Committee Meeting Minutes – May 1, 2017
3. Curriculum & Technology Meeting Minutes – May 15, 2017
   Mr. Strumello commented that he felt the textbook forms submitted to the committee were done very well; they were complete and effective.
4. Athletic Committee Meeting Minutes – May 17, 2017
   Mr. Hatfield had some questions regarding forms in the Family ID Program. Ms. Yusko confirmed that any required forms are added as they become available. He also said he felt we should revisit the policy on allowing only professional agencies to film football games as he feels this would be good for additional publicity. Mr. Strumello explained that the concern was for liability; the feeling was that many of the people requesting permission to film the games would not be able to get the necessary insurance. He assured Mr. Hatfield that the committee thought long and hard about this. He said the committee also had concerns regarding the available space in the press box.

C. Board of Education Report
1. Chairman’s Comments
   Mr. Putorti was happy to report that after a six-month long search Mr. Michael Wilson will be our new Superintendent effective July 1, 2017, he has received the letter from the state confirming this. He reminded Board members that graduation is next week and they will be wearing robes. He asked who would be marching. Mr. Kubik, Mr. Strumello, Mr. Putorti, Mr. Hatfield, and Mr. Stanek plan on attending.
2. Board Member Comments
   Mr. Hatfield asked for an update on the new Superintendent’s transition plan.

D. Superintendent’s Report
1. Final Report (this item was moved to end of meeting)

E. New Website Review – Vonda Tencza
Mrs. Tencza said they met with several website providers and chose Finalsite. She shared a mock up of what the new Finalsite website would look like and indicated that they worked hard to get this to her in time for this meeting. She stressed that now is the time for the Board to give their input and make decisions on the design of the website. Developing the website will be a process; Mr. Dyer and Mrs. Tencza will be building the pages. We need to consider what we want to keep from the old website. The goal is to keep it simple. Now is the time to make aesthetic changes. Mr. Strumello wanted to know if the calendar will be inclusive of all schools. Mrs. Tencza said it can show each school but a decision has not yet been made. Mr. Garofolo wanted to know if each school would have a link to connect specifically to them and he wanted to know if changes would cost once the site is up and running. Mrs. Tencza said content changes would not cost us but design changes would. Mr. Garofolo asked if down the line a position would be created to maintain the website. Mrs. Tencza said there would not be a specific position created and the maintenance would be done by existing staff. The target date for the new website is September 1.

F. E-Rate Results Recap – Rick Belden
Mr. Belden explained that this report is for information only from a 3rd party provider who does a summary for the year.

IX. ITEMS FOR DISCUSSION
A. Stratford Board of Education et al. v. City of Bridgeport et al. – Christine Syriac
   Mrs. Syriac explained that the Board asked that she reach out to the Board attorney for direction on this matter and his opinion was distributed to Board members. Mr. Belden also checked with several local districts and found that they are not participating.

SUPERINTENDENT’S REPORT (moved from Section VII D)

Mrs. Syriac wanted to share a reflection with the BOE. She spoke of how deeply appreciative she was to have served as Superintendent in Seymour which a beautiful community of students, parents, educators, and colleagues. She spoke of her transition from a New Jersey girl to a Valley girl by taking jobs in Naugatuck, Beacon Falls, and then to Seymour. She mentioned closing school 34 times due to inclement weather. She spoke of some of the district accomplishments such as adopting the Connecticut Core Standards and transitioning to new curriculum supporting those standards, Seymour High School was not placed on warning in the NEASC report for curriculum for the first time in 30 years, the graduation rate has increased, SAT scores increased, we began using MAP to measure individual student growth, developed a district data team that then expanded to building and grade level data teams, set measurable district goals for the first time and worked to have the schools align their goals with the district. In addition, the district moved from a student assistance team (SAT) model to an SRBI model. We now have two teachers at each elementary school to assist in providing supports to our students in math and reading, something we did not have in the past and the number of tutors increased in each elementary school. Smarter Balanced scores improved from year 1 to year 2. Chatfield and LoPresti merged to become one school and it is now the highest performing school in the district. The district transitioned to a new teacher/administrator evaluation and professional learning system and began a professional learning plan with the administrative team that aligned with work of the administrative team across the district. Mrs. Syriac met with district department heads on a weekly basis which allowed for increased communication across the district. She stressed the importance of parental involvement by providing incentives for teachers to invite parents into their classrooms to share what was happening in instruction; hundreds of parents participated. To meet the challenge put forth by the Board of Education when she started, Mrs. Syriac focused on improved communication by creating the Citizens Academy which invited community members to come and learn about what our schools offer and how we operate. The district has begun to merge shared services with the town which Mrs. Syriac believes is a fiscally sound decision. The Director of Technology position merged successfully, now there is the new position of a Facilities Manager, and she hopes the district continues to have future shared services. Mrs. Syriac talked about the budget process and how she worked extremely hard to present responsible budgets that continued the advancement of student learning and while still being responsible to taxpayers. She worked hard to shift things around within the district rather than present million dollar budget increases. She was proud to note that the last two budgets passed on the first referendum. No teacher lost their job because she was able to find them positions within the district when a reduction in force was necessary. Mrs. Syriac worked hard to improve her relationships with all employees in the district. Because of these improved relationships, she was able to avoid having any grievances during her tenure. Because of her willingness to work with the unions, she was able to realize a reduction in legal fees of about $250,000 over five years. She thanked the Board for working with her as Superintendent and said she felt genuinely blessed to have all of them serve on the BOE during her tenure. She did however mention two occasions where she did not feel supported by the Board of Education. Once was in January of 2016 in reference to her salary negotiations, no details were provided since she shared her feelings with the Board at that time. She said she has always focused on not the money but the continued success of the district and on valuing and promoting integrity in our district. She believes “the students are watching” and our actions are watched by them. She expects people to come to work every day and work hard so she modeled that by working hard and rarely missing work. She expects people to be nice to each other and therefore modeled kindness. She sent hundreds of personal notes to people thanking them for what they do for our children. The other time she felt unsupported by the BOE was when she learned the district will compensate the new superintendent at a higher rate than her current salary although he has never been a superintendent. She wanted them to know she does not begrudge him the salary but it is more an issue of feeling appreciated. She talked about the time when her first contract was negotiated and was told she was not experienced so her salary was less than the outgoing superintendent’s. She spoke of the conscious or unconscious discrimination against women, saying she worked hard to ensure equal education for all of our students – regardless of gender, saying again that the students are watching. She said she is proud of the accomplishments in the district but spoke of the work that is still to be done including increasing the academic rigor at our middle school, look at the loss of instructional learning due to miscellaneous activities at all levels, revisit the position of a curriculum person, an assistant director of Special Education, and restructure and redistribute the current administrative work without needing to add an administrative position. She said she believes that Michael and Vonda working together will be able to make great strides. She spoke of the pain of leaving when the work is not complete and how she has loved her life in Seymour, how she loves and cares about each and every one of our students, the staff and the Board of Education members and how thankful she is for the opportunity to serve. In honor of her tradition of having a song to fit the occasion, she will have “I Will Always Love You” by Dolly Parton playing on the car radio as she drives home from this meeting.
