

*Heather Brown
Seymour School District CT Teacher of the Year 2020*

"I want to instill a passion for understanding the past in order to help these young adults make informed decisions for the future. I want to instill the importance of being informed in order to make good decisions and to become good citizens. I believe it is my job to teach my students to be good citizens to exercise their rights and to be active members of their community, to be respectful and accepting of others."

-Heather Brown
