

## Confirmed COVID-19 Case in School - May 28, 2021

Dear Parents and Community Members:

Late yesterday evening, May 27, 2021, the Seymour Board of Education was notified that one student from Chatfield-LoPresti School tested positive for Coronavirus (COVID-19). The affected student has been instructed to remain home in self-isolation. Family members have also been instructed to self-quarantine. Our hearts go out to the involved families. We wish them a speedy and full recovery.

The student was in school and the last date of exposure was Wednesday May 26. All students in close contact have been notified and were instructed to remain home during their quarantine period.

As these last few weeks unfold, we urge you to continue to keep your children home if they or a family member are exhibiting COVID-19 symptoms or are not feeling well. We are so close to the end of our school year and want to end it strong, with everyone healthy and present in our buildings.

COVID-19 is spread mainly via person-to-person contact through contaminated air droplets from coughing and sneezing by an infected person. As with controlling the spread of other viruses, we urge everyone to discuss the following preventive measures with your children and family members:

- Wash your hands frequently, but especially after using the restroom and before preparing or consuming food. Using soap and hot water, wash for about 20 seconds. Be sure to also wash your fingertips. When soap and water are not available, use hand sanitizer.
- Avoid coughing or sneezing into your hands or in the air. Always try to cough or sneeze into a tissue, then throw the tissue away. If you don't have a tissue, cough/sneeze inside the elbow of your arm.
- As much as you can, avoid touching your eyes, mouth, and nose.
- Wear a face covering (mask) whenever there is a likelihood that you or your family members will be in the presence of others.
- Maintain social distancing (at least 6 feet) between yourself and others when outside of your home.

Below is the list of COVID-19 symptoms for which everyone should monitor in their family members:

- Fever (100.4° Fahrenheit or higher)
- Chills or shaking chills
- Uncontrolled new cough (not due to other known cause, such as chronic cough)
- Difficulty breathing or shortness of breath
- New loss of taste or smell

In addition to the above symptoms, please be aware that sore throat, muscle pain, nausea, vomiting, diarrhea and headache may also be symptoms associated with COVID 19. For additional information on COVID-19 symptoms, please see: <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html> Staff and students exhibiting any of the above symptoms, or feeling ill, should remain home and call their medical provider to report their symptoms and ask about testing prior to seeking in-person care at a clinic, physician's office, or hospital.

For more information on what to do if you or a family member has possible symptoms, a diagnosis, or exposure to COVID-19, please see *Addendum 5: Interim Guidance for Responding to COVID-19 Scenarios in Connecticut School Districts*, available here:

<https://portal.ct.gov/SDE/COVID19/COVID-19-Resources-for-Families-and-Educators/Addendums-and-FAQs>

We are closely monitoring this situation and working with Naugatuck Valley Health District and will provide you with updates as we know more. If you have questions, please do not hesitate to contact me.

Sincerely,

Vonda Tencza  
Associate Superintendent of Seymour Schools
