

COVID 19 Vaccine Clinic Clarification

Good Morning Seymour Community,

We hope this email finds you well. We realize that the link provided from NVHD and Griffin in the email we sent out yesterday for our **COVID 19 Vaccine Clinic** on 5/21/2021 indicates it is only for you to receive your "second dose". That is not the case.

We are very pleased that this is the second dose clinic for 16 and older, we are also excited that we are able to invite students age 12 and older along with their family members to this receive their first dose. If you have a student that is the age of 12 or older, do not hesitate to use the link to sign up for their COVID 19 vaccine. There will also be a follow up clinic for anyone that will receive their first dose on 5/21/2021.

We hope this clears up any confusion.

Thank you,
Michael Wilson, Superintendent of Seymour Schools
Vonda Tencza, Associate Superintendent of Seymour Schools
Rebecca Bennett, Head Nurse of Seymour Schools
