

October 22, 2020

Dear Seymour School Community,

We hope that this letter finds you all safe and well. Today, we received word from the State Department of Health that the Town of Seymour has been moved into the Orange status in terms of our metrics. While we are sad to see this increase, it reminds us of the need to remain vigilant in terms of handwashing and mask wearing while both in and out of school. In partnership with our Director of Emergency Management as well as Naugatuck Valley Health District, our hybrid model of learning remains the best course of action for our schools to do our part to help mitigate the spread of this virus. I remain confident that together, we all will continue to get through this. Please remember all of the safety protocols in place so that we can help to minimize the spread of this virus. Please stay healthy and safe.

With Great Pride,

Michael Wilson

Superintendent
