Seymour Distance Learning Etiquette

Please consider the following tips when utilizing chat and video features of distance learning platforms. Just like being in the classroom in the building, there are norms and rules to follow.

**Live Video Discussions**

- Background- please be mindful of what is happening in your background.
- Mute- mute your microphone when not speaking to eliminate background noise
- Appropriate Clothing- is your attire appropriate? Example: shirts with profanity are not allowed in school- same reminders for virtual learning.
- Appropriate Place -Chat while at a table, desk, or other appropriate learning space.
- Appropriate Language- both verbally and in online chats, no profanity or hurtful comments are allowed.
- If the teacher utilizes a chat feature, a question can be asked while somebody is speaking through the chat. This encourages all students to have a voice in the discussion.
- If not using the camera, the camera should be covered up on the devices, both student and teacher.
